

A good job is not hardie to find.

Become part of the James Hardie Europe GmbH success story. **Your Partner in Growth.**

We are the global market leader in fiber gypsum and fiber cement solutions with the fermacell® and James Hardie brands. With our ground-breaking innovations we change the way Europe builds. We are setting new standards in areas such as lean manufacturing, demand creation and implementing our push-pull strategy. Every day, our fantastic team combines the creative spirit of a start-up with the power of a global market leader.

We specifically promote the personal and professional development of our employees - through individual training and exciting projects. It's not just the company that grows with us, but also each individual in the team.

To strengthen our team, we are looking for a

Central Laboratory Specialist FG
(f/d/m)

in **Full-time employee** and **permanent** for our plant in **Seesen/Münchehof**.

Your tasks

- **Quality Control with Overview:** You are responsible for quality control in the laboratory, including sampling and testing of raw materials, trading goods and finished products.
- **Testing & Documentation Excellence:** You perform required laboratory and industrial tests, document test results accurately and continuously improve quality related documentation.
- **Central Quality Ownership:** You take responsibility for the quality management system in the Central Laboratory and ensure correct, transparent and compliant quality documentation.
- **Learning & Development:** You actively participate in professional trainings and qualification programs to continuously expand your expertise.
- **Strong Collaboration:** You communicate efficiently within the team, cooperate effectively with other departments, support your teammates in their tasks and keep your supervisor well informed.
- **Safety with Responsibility:** You work strictly in line with occupational health and safety regulations, correctly use protective equipment and actively contribute to a safe and inclusive work environment and immediately report incidents or hazards—looking out for yourself and others.
- **Mindful Daily Practice:** You ensure proper condition of machines, tools and equipment, maintain order and cleanliness.
- **Ownership & Efficiency:** You complete tasks on time, continuously develop your professional knowledge and handle materials and assets responsibly and efficiently.

You are...

- **smart?** You have completed relevant professional training and have at least 12 months of practical work experience. In addition, you possess proven basic knowledge of quality processes. Your technical skill set includes fundamental laboratory and materials knowledge, particularly regarding physicochemical properties such as density, moisture content, and strength. You are able to correctly perform laboratory tests as well as operate and maintain laboratory equipment properly. You are confident in working with technical documentation and standards and have a good command of MS Office, especially Excel.

- **driven?** You work in a disciplined and reliable manner, strictly adhering to defined procedures, and show a high level of resilience when dealing with routine and repetitive tasks. Taking responsibility and accountability for accurate test results comes naturally to you. Thanks to your analytical mindset, you approach tasks in a structured way and remain focused and motivated even in monotonous working environments.
- **real?** You enjoy working as part of a team and are characterized by a strong sense of responsibility, conscientiousness, and accuracy. Your work is well organized, and you communicate clearly and effectively. Reliability, attention to detail, and accountability define the way you collaborate with others on a daily basis.

You don't meet all above mentioned criteria? Be brave and apply anyway! We offer a wide range of further training and are willing to develop you into the role, if necessary!

What we offer

- **Comprehensive support for families** through the pme-family-service (advice, support in finding a nursery place and much more).
- **Targeted training programs** to support your development (Individual Development Plans, JH Academy, Master Plan, Employers for Equality, Women's Initiative Network), as well as numerous "Grow Events".
- **Comprehensive health offerings** (Healthy Hardie to promote physical and mental health), including company supplementary health insurance and access to fitness programs.
- **Attractive compensation model**, as well as various benefits (such as BAV, Job Bike, Job Ticket).
- **30 vacation days.**

Curious?

Then become part of James Hardie. We are only strong together as a team. Diverse employees drive innovation and growth. We are interested in what people think, regardless of culture, background, personal belief or physical disabilities. We are looking forward to getting in touch with you.

To make the process as fair as possible, we support anonymous applications without pictures, gender or date of birth. All we need for your application is a CV and your notice period. If you wish, you can also enclose certificates or other documents with your application.
