

A good job is not hardie to find.

Become part of the James Hardie Europe GmbH success story. **Your Partner in Growth.**

We are the global market leader in fiber gypsum and fiber cement solutions with the fermacell® and James Hardie brands. With our ground-breaking innovations we change the way Europe builds. We are setting new standards in areas such as lean manufacturing, demand creation and implementing our push-pull strategy. Every day, our fantastic team combines the creative spirit of a start-up with the power of a global market leader.

To strengthen our team, we are looking for a

Master Data Manager EU (m/f/d)

in **fulltime** and **unlimited** for our European Headquarter in **Düsseldorf**.

Your tasks

- Identify critical master data assets within James Hardie Europe business
- Define and implement governance structure, processes, roles and responsibilities necessary to maintain high quality levels in master data
- Collaborate closely with data owners and managers across the business organization
- Define and implement data quality criteria for each master data asset
- Interact with James Hardies' customers to understand future data requirements (e.g., for PIM-tool)
- Support James Hardie Europe in selecting and implementing data management tools, e.g., PIM or similar
- Alignment with Global Organization

You are...

- **smart?** You have a Bachelor's degree in fields such as Computer Science, Information Systems, Data Science, Business Administration or a related discipline. An advanced degree, such as an MBA or Master, is also highly desirable but not required. Ideally, you have 5+ years of experience in (master) data management, data analysis, database systems, and information governance. In addition to that, your knowledge in cloud DBs such as Snowflake, Azure and AWS would be welcome and you are familiar with MDM tools and/or PIM. You have a good understanding of E2E business processes as well as an exposure to ERP/CRM/MES systems (e.g. SAP, Salesforce).
- **driven?** Standing still is a foreign word for you. Your high level of self-motivation drives you and you have the ability to work independently with a strong sense determination in achieving goals and meeting deadlines. At the same time, you are capable to work with cross-functional teams and stakeholders also globally ranging from business to top management.
- **real?** You have strong interpersonal communication skills with the ability to relate well and cooperate with others to effectively execute master data quality initiatives/projects and accomplish goals. Very good German and English language skills are mandatory as well as advanced skills in documenting master data quality standards, procedures, and policies clearly and concisely. Commitment to the corporate culture, vision, mission and values is natural for you.

Was wir bieten

- A very collegial atmosphere in a dynamic environment
- Continuous, individual development opportunities
- Attractive, success-oriented variable compensation model
- The freedom to participate in processes and projects
- Option to work remotely
- Various benefits such as subsidized job ticket, additional company health insurance, company pension scheme (30% subsidy), pme family service and learning tool (master plan)

Curious?

Then become part of James Hardie. We are only strong together as a team. Diverse people drive innovation and growth. We are interested in what people think, regardless of culture, background, or personal belief. We are looking forward to getting in touch with you.
